STORY

Help E.T. safely rejoin his spaceship. To make sure he can go back home, you will have to find different items in order to build a communicator and send a message to his planet. To do so, you will have to overcome many different challenges that involve both logic and action.

HELP

You can get either Elliott or Gertie to help you anytime by clicking on their picture in the toolbar (click on the yellow bag on the top right hand corner of the screen to activate). They will remind you of the goals of the current challenge.

INTERFACE

Click on Elliot or Gertie's picture to get clues about the objects or challenges.

Save your game.

Quit.

By sliding your cursor to the left or the right in the pantry, you will scroll through the objects stored.

When E.T. talks to a Elliot, Gertie, or Michael, pay attention to what they have to say. They will give you advice to help you move along in your guest.

Over the course of the adventure, you will find many objects. Put them away in the pantry by clicking on the bag. You will be able to take them back when you need them.

HINTS & TIPS

MOVING E.T.

If you are having trouble moving ahead, click on the ground where you want E.T. to go.

MIX-UP IN THE CUPBOARD

It is easier to sort out the items if you put the big ones on the bottom and put the small ones on the top of the pile.

THE ATTIC

Look carefully at the ground and place the boxes according to the corresponding numbers.

If you are blocked, click on the brooms for Michael to help you put everything back in place.

THE BOOKSHELF

It is classified by columns (from top to bottom).

THE CODED MESSAGE

Write down the combinations on a paper: it's easier that way!

THE GEARS

There is more than one way to solve this puzzle.

GERTIE'S FLOWERS

Click on the blue frozen petals: they freeze time and enable you to take the petals you want.

THE MOONLIGHT RIDE

Don't hit the logs! You can lose energy.
